SUMMARY

ESG professional with 4+ years of experience in sustainability reporting and ESG regulatory compliance for financial and corporate sectors, with an M.Sc. from a top global university. Strong knowledge of ESRS, EU Taxonomy, GHG Protocol, EU Green Bonds, and ESG Ratings. Proficient in ESG data analysis using business intelligence and AI tools. Experienced in client and C-Suite stakeholder management, working across multiple languages and international contexts. Based in Munich but open for relocation.

PROFESSIONAL EXPERIENCE

SENIOR CONSULTANT SUSTAINABLE FINANCE, Deloitte

Munich, Germany | January 2025 - Present

- Led sustainability report audits in compliance with ESRS for 10+ banking and insurance clients, conducting Scope 1-3 emissions audits per GHG Protocol and evaluating corporate governance processes under EU and German frameworks.
- Fostered client contact, especially by maintaining regular jour-fixe and by conducting process interviews to integrate sustainability practices in the company's internal data and reporting structures.
- Conducted data-based benchmarking of financial sector sustainability reports, working with large datasets and internal AI tools to develop interactive Power BI dashboards for key ESRS metrics; presented findings in webcasts with 120+ company representatives to support client engagement and project acquisition.

SENIOR ASSOCIATE ESG / SUSTAINABILITY, KPMG

Munich, Germany | November 2022 - December 2024

- Managed consulting engagements for 15+ clients across food, textile and retail industries, ensuring CSRD compliance through guidance on ESG data collection, double materiality assessments and gap assessments.
- Developed data-driven strategies to improve clients' scores in ESG rating systems such as MSCI and Sustainalytics.
- Maintained direct interaction with clients and C-Suite stakeholders through regular jour-fixe presenting concrete weekly progress, often in multiple languages.
- Gained hands-on experience with further sustainability standards, including TCFD and GRI, through cooperation in international projects.
- Obtained the professional qualification of ESG Expert from the EBS University.

ENVIRONMENT, HEALTH AND SAFETY SPECIALIST, Tata Consultancy Services

Munich, Germany | May 2021 - June 2022

- Collected ESG performance data of the company in Germany by engaging with a wide range of internal and external stakeholders.
- Analysed the collected data to ensure compliance with ISO 14001 and ISO 45001 and to develop novel sustainability policies across the company's German offices.
